

Wheel Chair Lap Quilt

1. Sew squares together to make a 9 patch block, with the red square in the center. Press and square the block to 14 inches. (Our squares are 5" x 5").

2. Cut the 9 patch block in half – both vertically and horizontally; measure 2 ¼ inches from side seam of center square as shown.

3. Turn the cut block pieces to make a new block pattern. Sew together and square up.

4. Make four of these blocks. Sew the four together and square them up before sewing on the borders.

Give quilt top to Janet Fahey or Wanda Williams – Thank you
