## Making the Top

Sew (1) Block Two between (2) Block Ones. Make (2) rows. These will be row 1 and row 3. Press the block seams to the right. This row should measure 18-1/2" × 54-1/2".

Sew (1) Block One between (2) Block Twos. Make (2) rows. These will be row 2 and row 4. Press the block seams to the left. This row should measure 18-1/2" × 54-1/2".

Sew the rows in numerical order, taking the time to pin the block intersections so they don't overlap.

When you are done, the entire top should measure 54-1/2" × 72-1/2". Press from the back so you can fix any twisted seams - and admire your work!

## To Create the Outer Border

The Outer Border is mitered. It is cut so that the thin Scallops on Cream strip forms a fussy-cut inner border. To do that, you need to fussy cut the border fabric 1/4" to the *left* of the cream border strip (cutting into the blue stripe next to it) and 1/4" to the *right* of the wide Pomegranate strip (cutting into the red stripe next to it.) Your strips will probably be about 8-1/2" wide but this will vary by print. Use your own measurement.

These stripes will need to be sewn end-to-end to make strips long enough to make the Outer Border. Do your best to match the design without losing too much of the fabric. You will need about 360" in length.
